Acknowledgments

We are incredibly grateful to all of the individuals who devoted their time and expertise to creating these resources. Our team consisted of a wide range of Asian American identities, backgrounds, and experiences -- including current or former K-12 teachers, librarians, professors, education equity advocates, former Illinois public school students, and leaders from Asian American cultural institutions. Everyone shared a passion to ensure that Asian American history is not only represented, but also depicted in a thoughtful, nuanced, and inclusive way. The goal of the Curricular Resource Development team was to create an accessible resource guide that makes it easy for teachers to include Asian American history into their curricula. We hope these resources build greater understanding and empathy within our communities.
